Consolidated Financial Statements

Together with **Independent Auditors' Review Report**

As of June 30, 2006

The reader is advised that these consolidated financial statements have been prepared originally in Chinese. These consolidated financial statements do not include additional disclosure information that

is required for Chinese-language reports under the "Guidelines Governing the Preparation of Financial

Reports by Securities Issuers" and "Guidelines Governing the Preparation of Financial Reports by

Personal Insurance Industries." If there is any conflict between these financial statements and the

Chinese version or any difference in the interpretation of the two versions, the Chinese language

consolidated financial statements shall prevail.

English Translation of Report Originally Issued in Chinese

Independent auditors' review report

To: Board of Directors Cathay Life Insurance Co., Ltd.

We have reviewed the accompanying consolidated balance sheet of Cathay Life Insurance Co., Ltd. and its subsidiaries as of June 30, 2006, and the related consolidated statement of income, changes in stockholders' equity and cash flows for the six months then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a review report based on our review.

We conducted our review in accordance with generally accepted auditing standards No. 36"Review of Financial Statements" in the Republic of China (R.O.C). A review of interim financial information consists principally of applying analytical review procedures to financial data and making inquires of persons responsible for financial and accounting matters. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards in the R.O.C, where the objective is to express an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements as of and for the six months periods ended July 30, 2006 in order for them to be in conformity with "Guidelines Governing the Preparation of Financial Reports by Securities Issuers", "Guidelines Governing the Preparation of Financial Reports by Personal Insurance Industries.", and generally accepted accounting principles in the Republic of China.

As discussed in Note 3 to the financial statements, effective from January 1, 2006, Cathay Life Insurance Co., Ltd and Subsidiaries adopted the R.O.C. Statement of Financial Accounting Standards No. 34, "Accounting for Financial Instruments," and No. 36, "Disclosure and Presentation of Financial Instruments".

Ernst & Young Taipei, Taiwan The Republic of China July 31, 2006

Notice to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

The reader is advised that these consolidated financial statements have been prepared originally in Chinese. These consolidated financial statements do not include additional disclosure information that is required for Chinese-language reports under the "Guidelines Governing the Preparation of Financial Reports by Securities Issuers" and "Guidelines Governing the Preparation of Financial Reports by Personal Insurance Industries." If there is any conflict between these consolidated financial statements and the Chinese version or any difference in the interpretation of the two versions, the Chinese language consolidated financial statements shall prevail.

1. Organizations and business scope

Cathay Life Insurance Co., Ltd. (the "Company") was incorporated in Taiwan on October 23, 1962, under the provisions of the Company Law (the "Company Law") of the Republic of China ("ROC"). The Company mainly engages in the business of life insurance. On December 31, 2001, the Company became a subsidiary of Cathay Financial Holding Co., Ltd. ("Cathay Financial Holding") by adopting the stock conversion method under the ROC Financial Holding Company Act ("Financial Holding Company Act") and other pertinent laws of the ROC.

As of June 30, 2006, the total number of employees was 26,867.

2. Summary of significant accounting policies

We prepared the consolidated financial statements in accordance with the generally accepted accounting principles, the "Guidelines Governing the Preparation of Financial Reports by Securities Issuers" and the "Guidelines Governing the Preparation of Financial Reports by Personal Insurance Industries." The summary of significant accounting policies is as follows:

(1) Principles of consolidation

Effective from January 1,2005, The Company adopted SFAS No.7 "Consolidated Financial Statements" which was revised on December 9,2004. As of and for the six months ended June 30, 2006, the consolidated financial statements include the followings:

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

Investors	Investees	Business	Ownership interest	Notes
The Company Cathay Venture	Symphox Information Co., Ltd. ("Symphox Information")	Type II telecom service, data processing service, information supply service	99.53%	Symphox Information was incorporated in Taiwan on December 12, 1999, under the provisions of the Company Law. Cathay Life and Cathay Venture's ownership interests are 60.12% and 39.41% of the common stock, respectively. As of June 30, 2006, the total number of employees was
				158.
The Company	Cathay Venture Capital Co., Ltd. ("Cathay Venture")	Venture capital investment	25.00%	Cathay Venture was incorporated in Taiwan on September 13, 2000, under the provisions of the Company Law. 67% ownership interests are held by the Company, Cathay Financial Holding Co., Ltd., Cathay United Bank and Cathay Century Insurance Co., Ltd.
The Company	Cathay Life Insurance Ltd. (Shanghai) ("Cathay Life (Shanghai)")	Life insurance	50.00%	Cathay Life (Shanghai) acquired an operation license of an enterprise as a juristic person on December 29, 2004. The Company and China Eastern Airlines Corporation Limited ownership interests are 50% of the common stock, respectively. As of June 30, 2006, the total number of employees was 346.

				were insignificant to the total assets
				and operating revenues of the
				Company.

(2) Current and non-current assets and liabilities

Current assets are assets can be liquidated or disposed within one year. Assets other than current assets are non-current assets. Current liabilities are debts must be paid-off within one year. Debts other than current liabilities are non-current liabilities.

(3) Cash and cash equivalents

Cash and cash equivalents include cash on hand, unrestricted bank deposits and all highly liquid investments with maturities of less than three months.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(4) Recognition of financial assets and liabilities

The Company adopted the Statements of Financial Accounting Standards of the ROC ("ROC SFAS") No.34 "Accounting for Financial Instruments", "Guidelines Governing the Preparation of Financial Reports by Securities Issuers" and "Guidelines Governing the Preparation of Financial Reports by Personal Insurance Industries". Financial assets are categorized as the "financial assets at fair value through profit and loss", "held-to-maturity financial assets", "investments in debt securities with no active market", "available-for-sale financial assets", "financial assets carried at cost" and "derivative financial assets for hedging". Financial liabilities are categorized as the "financial liabilities at fair value through profit and loss" or "derivative financial liabilities for hedging". Financial assets are recorded at fair value plus the cost of ownership or issuance cost at the initial recognition.

All "regular way" purchases and sales of financial assets are recorded on the trade date (i.e. the date that the Company commits to purchase or sell the asset). "Regular way" purchases or sales are transactions of financial assets that require delivery of assets within the period established by regulation or convention in the marketplace.

A. Financial assets at fair value through profit and loss

Financial assets at fair value through profit and loss are categorized as held for trading or designated as assets to be measured at fair value. Gains and losses from changes in fair values of such assets are reflected in the income statement.

B. Held-to-maturity financial assets

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Company has the intention and ability to hold to maturity. Such investments are subsequently measured at amortized cost. Gains and losses are recognized in the income statement when the investments are derecognized and impaired. The amortized cost is computed as the cost (amount initially recognized) minus principle repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the cost and the maturity amount, and less the impairment. The contracts related to the financial assets, transactions costs, fees and premiums/ discounts have been taken into the consideration of the effective interest rate calculation.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and pershare data and unless otherwise stated)

As of June 30, 2006

C Investments in debt securities with no active market

Investments in debt securities with no active market are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortized cost using the effective interest method. Gains or losses from changes in fair value are recognized when the investments in debt securities with no active market are derecognized and impaired.

D. Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or not classified in any of the three preceding categories. Gains or losses on available-for-sale financial assets shall be recognized in equity before the financial assets are derecognized, except for impairment losses and gains or losses on exchange rate of monetary financial assets. When financial assets are derecognized, the cumulative gains or losses previously recognized in equity shall be recognized in profits or loss.

E. Financial assets carried at cost

Financial assets measured at cost are investments to non-listed companies without significant influence or control. They are recorded at initial cost due to the fair values of the related equity instruments are not able to be reliably measured. If there is objective evidence that an impairment loss has been incurred, the amount of the loss will be recognized. The impairment loss can not be reversed.

F. Derivative financial assets for hedging

Derivative financial assets that have been designated in hedge accounting and are effective hedging instruments shall be measured at fair value.

The fair value of a listed stock or a depositary receipt is the closing price as of the balance sheet date. The fair value of an open-end fund is the net asset value of the fund as of the balance sheet date

Financial liabilities are subsequently measured at fair value.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(5) Derecognize of financial assets and liabilities

A. Financial assets

A financial asset (or a portion) is derecognized in which the control over the asset (or a portion) is surrendered. Transfer a financial asset (or a portion) is deemed a sale to the extent of consideration received when the transferor surrenders control over the assets.

If a transfer of financial assets in exchange for cash or other consideration (other than beneficial interests in the transferred assets) does not meet the criteria for a sale, the transfer is accounted for as a borrowing with collateral.

B Financial liabilities

A financial liability (or a portion) is derecognized when the obligation under the liability agreement is discharged or cancelled or expires.

Where an existing financial liability is replaced by another one from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognization of the original liability and the recognition of a new liability. The difference between the respective carrying amounts is recognized in the income statement.

(6) Accounting for impairment of financial assets

The Company assesses at each balance sheet date whether a financial asset or group of financial assets is impaired.

A. Financial assets carried at amortized cost

If there is objective evidence that an impairment loss on financial assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset shall be reduced either directly or through use of an allowance account. The amount of the loss shall be recognized in profit or loss.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

If, in a subsequent period, the amount of the impairment loss decreases and the decrease relates to an event occurs after the impairment is recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the income statement, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

B. Financial assets measured at cost

If there is objective evidence that an impairment loss on an unquoted equity instrument, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument has been incurred, the amount of the loss is recorded as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. The impairment loss can not be reversed.

C. Available-for-sale financial assets

If an available-for-sale financial asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortization) and its current fair value, less any impairment loss previously recognized in profit or loss, is transferred from equity to the income statement. Reversals in respect of equity instruments classified as available-for-sale are not recognized in profit. Reversals of impairment losses on debt instruments are reversed through profit or loss, if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognized in profit or loss.

(7) Derivative financial instruments

The Company takes derivative financial instrument transactions such as forward currency contracts and futures to hedge its risks associated with foreign currency and stock fluctuations. These derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

Any gains or losses arising from changes in fair value on derivatives that do not qualify for hedge accounting are taken directly to net profit or loss for the period.

For the purpose of hedge accounting, hedges are classified as:

- A. Fair value hedges: to hedge the exposure to changes in the fair value of a recognized asset or liability;
- B. Cash flow hedges: to hedge the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction; or
- C. Hedge of a net investment in a foreign operation: to hedge the exchange rate variability risk for a net investment in a foreign operation.

At the inception of a hedge relationship, the Company formally designates and documents hedge relationship to which the Company wishes to apply hedge accounting, the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges in compliance with hedge accounting requirements are accounted for as follows:

Fair value hedges

Fair value hedges are hedges of the Company's exposure to changes in fair value of a recognized asset or liability or an unrecognized firm commitment, or an identified portion of such an asset, liability or firm commitment, that is attributable to a particular risk which could impact profit or loss. The carrying amount of the fair value hedged item is adjusted for gains and losses attributable to the risk being hedged. The underlying derivative is remeasured at fair value and resulting gains or losses are recognized as profit or loss.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

For fair value hedge relating to item carried at amortized cost, the adjustment to carrying value is amortized through profit or loss over the remaining term to maturity. Any adjustment to the carrying amount of a hedged financial instrument for which the effective interest method is used is amortized to profit or loss.

Amortization may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

When an unrecognized firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognized as an asset or liability with a corresponding gain or loss recognized in profit or loss. The changes in the fair value of the hedging instrument are also recognized in profit or loss.

The Company discontinues fair value hedge accounting if the hedging instrument expires or disposed, terminated or exercised, the hedge no longer meets the criteria for hedge accounting or the Company revokes the designation. Any adjustment to the carrying amount of a hedged financial instrument for which the effective interest method is used is amortized to profit or loss. Amortization may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

Hedging instruments are subsequently measured at fair value or the gains (losses) resulting from the exchange rate changes are recognized in current period earnings by to the Statements of Financial Accounting Standards No.14 "Accounting for Foreign Currency Transactions and Translation of Foreign Financial Statements".

Cash flow hedges

Cash flow hedges are a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction and could affect profit or loss. The effective portion of the gain or loss on the hedging instrument is recognized directly in equity, while the ineffective portion is recognized in profit or loss.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

Amounts taken to equity are transferred to the income statement when the hedged transaction affects profit or loss, such as when hedged financial income or financial expense is recognized or when a forecast sale or purchase occurs. Where the hedged item is the cost of a non-financial asset or liability, the amounts taken to equity are transferred to the initial carrying amount of the non-financial asset or liability.

If the forecast transaction is no longer expected to occur, amounts previously recognized in equity are transferred to profit or loss. If the hedging instrument expires or disposed, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, amounts previously recognized in equity remain in equity until the forecast transaction occurs. If the related transaction is not expected to occur, the amount is taken to profit or loss.

Hedges of a net investment in a foreign operation

Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instruments relating to the effective portion of the hedge are recognized directly in equity while any gains or losses relating to the ineffective portion are recognized in profit or loss. On disposal of the foreign operation, the cumulative value of any such gains or losses recognized directly in equity is transferred to profit or loss.

(8) Allowance for bad and doubtful debts

Based on the regulation the Company estimated the possible bad debts of accounts receivable and secured loans by evaluating customers' financial results, payments histories, collaterals and past due periods.

The allowance for bad debts of Cathay Life (Shanghai) was calculated by management using aging analysis and past experience and based on the year end balances of receivables such as premiums receivable, interest receivable and accounts receivable.

The allowance for bad debts of Symphox Information, doubtful accounts on notes receivable, overdue accounts and loans are determined based on the aging analysis of outstanding balances of such accounts and experience.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(9) Long – term investments under equity method

Long-term investments in equity securities are accounted for under the equity method where the Company owns more than 20% of the investee's voting stocks or the Company has significant influence over the investee company. The difference between the investment cost and the Company's share of net assets of the investee company was amortized over 5 years. However, started from January 1, 2006, such difference is no longer amortized. Newly acquired difference is analyzed and accounted for in conformity with the acquisition cost allocation as provided in SFAS No.25 "Business Combination-Accounting Treatment under Purchase Method." Goodwill is no longer amortized.

If the investee company issues new shares and original shareholders do not purchase or acquire new shares proportionately, then the investment percentage, and the equity in net assets for the investment that the investor company has invested will be changed. Such difference shall be used to adjust the additional paid-in capital and the long-term investment under the equity method accounts.

If the adjustment stated above is to debit the additional paid-in capital account and the book balance of additional paid-in capital from long-term investments is not enough to be offset, the difference shall be debited to the retained earnings account.

The Company prepares semi-annual and annual consolidated financial statements which include parent company, parent controlled or significant subsidiaries.

(10) Investments in real estate

Investments in real estate are stated at cost when acquired.

Improvements and major renovation of investments in real estate are capitalized, while repairs and maintenance are expensed immediately.

Upon disposal, the related cost, accumulated depreciation and accumulated impairment are eliminated and gains and losses are recorded in operating gains and losses accounts.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

Depreciation is calculated using the straight-line method in accordance with the "Estimated Useful Life of Fixed Assets Table" published by the Executive Yuan of the ROC (the "Executive Yuan Depreciation Table").

Real estate investment primarily is for business leasing purposes; rents can be paid annually, semi-annually, quarterly, monthly or in a lump sum.

(11) Property and equipment

Property and equipment are stated at cost or cost plus appreciation. When reevaluating property and equipment, land and other properties shall be reevaluated separately. Property appreciation shall be recorded under "capital surplus", according to applicable regulations. The capital surplus can only be used to offset operating losses and to increase capital.

Major improvements, additions, and renewals are capitalized, while repairs and maintenance are expensed when incurred.

Upon the sale or disposal of properties and equipment, their cost, related accumulated depreciation and accumulated impairment are removed from respective accounts. Gain or loss resulting from such sale or disposal is accounted for as non-operating gain or loss.

Depreciation is calculated using the straight-line method over the estimated service lives prescribed by the Executive Yuan Depreciation Table. Property and equipment that are still in use after their useful lives are depreciated on the residual value and the newly estimated remaining useful lives.

Fixed assets of Cathay life (Shanghai) are assets with useful life over a year and value per unit exceeds \$2,000 RMB such as houses, buildings, machines, equipments and vehicles. These assets are recorded at cost and depreciated using straight-line method starting from the subsequent month after the assets are ready to be used. The remaining values of the fixed assets are 10% of their costs.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(12) Intangible assets

A. The Company

Intangible assets of the company are computer softwares which are recorded at cost and amortized over 3 years on a straight-line basis.

B. Cathay Life (Shanghai)

Intangible assets of Cathay Life (Shanghai) are primarily computer softwares which are recorded at cost and amortized on a straight-line basis over the least of the following: estimated useful lives, contract terms and statutory useful lives.

(13) Deferred charges

According to the regulations established by the ROC Ministry of Finance (the "MOF"), the Company created a "stabilization fund" and an offsetting account "stabilization fund reserve". These two accounts are not listed in the financial statements due to their offsetting nature. From 1993 to June 30, 2006, an aggregate of NT\$2,689,954 (US\$83,203) was appropriated to this fund.

(14) Impairment of assets

Pursuant to SFAS No. 35, the Company assesses indicators for impairment for all its assets within the scope of SFAS No. 35 at each balance sheet date. If impairment indicators exist, the Company shall then compare the carrying amount with the recoverable amount of the assets or the cash-generating unit ("CGU") and write down the carrying amount to the recoverable amount where applicable. Recoverable amount is defined as the higher of fair values less costs to sell and the values in use.

For previously recognized losses, the Company shall assess, at each balance sheet date, whether there is any indication that the impairment loss may no longer exist or may have decreased. If there is any such indication, the Company has to recalculate the recoverable amount of the asset. If the recoverable amount increases as a result of the increase in the estimated service potential of the assets, the Company shall reverse the impairment loss to the extent that the carrying amount after the reversal would not exceed the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the assets in prior years.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

In addition, a goodwill-allocated CGU or group of CGUs is tested for impairment at the same day of each year, regardless of whether an impairment indicator exists. Any impairment loss is recognized to reduce the carrying amount of the assets of the CGU or the group of CGUs in the following order:

- (a) first, to reduce the carrying amount of any goodwill allocated to the CGU or group of CGUs; and
- (b) if the goodwill has been written off, to reduce the other assets of the CGU or group of CGUs pro rata to their carrying amount.

The write-down in goodwill cannot be reversed under any circumstances in subsequent periods.

Impairment loss (reversal) is classified as non-operating losses (income).

(15) Real Estate Investment Trust (REIT)

The Company has adopted "Accounting Treatment under Real Estate Securitization" with the Accounting Research and Development Foundation.

Profit or loss on disposal of the real estate property is calculated by the "total accrual" method when rights and obligation of the estate property has been transferred to the REIT.

Should the Company and its related parties did not participate in the original offering but acquired REIT shares less than 20% of the REIT's total outstanding shares at fair value, from the Taiwan Stock Exchange Corporation within three months subsequent to the original offer. Such acquisition of REIT shares is deemed to have no effect on the disposal of the underlying real estate property. Therefore, the acquisition of REIT shares is treated separately against the disposal of the underlying real estate property.

However, should the Company and its related parties did not participate in the original offering, but acquired REIT shares greater than 20% of the REIT's total outstanding shares at fair value, from the Taiwan Stock Exchange Corporation within three months subsequent to the original offer. Such acquisition of REIT shares is then deemed as a partly disposal of the real estate property and defer part of the profit or loss of the disposal of the real estate property in terms of the total REIT shares acquired against

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

REIT's total outstanding shares.

(16) Guaranteed depository insurance payment

A. The Company

According to Article 141 of the ROC Insurance Law (the "Insurance Law"), an amount equal to 15% of the Company's capital stock must be deposited in the form of bonds with the Central Bank of China (the "Central Bank") as the "Guaranteed Depository Insurance".

B. Cathay Life (Shanghai)

According to the Insurance Law of the People's Republic of China, the guaranteed deposit of Cathay Life (Shanghai) is 20% of the registration capital must be deposited in the form of time deposits.

(17) Reserve for operations

A. The Company

According to the Insurance Law, reserves for operations are required, including unearned premium reserve, claim reserve, special reserve, and reserve for life insurance. The reserve amounts are provided by actuaries.

In addition, according to the MOF regulation which became effective from December 30, 2002, the surplus from the "Special Reserve for the Loss Movement" should be placed as special reserve under proprietary equity after the Board of Directors approved the surplus appropriation. This amount may not be distributed or used for other purposes unless approved by the MOF.

B. Cathay Life (Shanghai)

In accordance with the Insurance Law of the People's Republic of China, the operating reserves (including unearned premium reserves, claim reserves and life

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

policy reserves) are required and are calculated based on the actuarial reports.

(18) Insurance premium income and expenses

In accordance with "The General Accounting Systems for Insurance Companies" published by the Finance Ministry of the ROC, the Company records direct premiums as income at the time of cash receipts. In addition, Cathay Life (Shanghai) adopts the same way. Related expenses (commissions, brokerage fees, etc.) are recognized on an accrual basis.

(19) Pension plan

The Company has established a pension plan for all employees. Pension plan benefits are based primarily on participants' compensation and the number of years of credited service.

The Labor Pension Act of R.O.C. ("the Act"), which adopts a defined contribution scheme, takes effect from July 1. 2005. In accordance with the Act, employees of the Company may elect to be subject to either the Act, and maintain their seniority before the enforcement of the Act, or the pension mechanism of the Labor Standards Law. For employees subject to the Act, the Company shall make monthly contributions to the employees' individual pension accounts on a basis no less than 6% of the employees' monthly wages.

In compliance with ROC Securities and Futures Commissions ("SFC") regulations, the Company follows the ROC Statement of Financial Accounting Standards ("SFAS") No. 18, "Accounting for Pensions". An actuarial valuation of pension liability is performed on the balance sheet date, and a minimum pension liability is recorded in the financial statements based on the difference between the accumulated benefit obligation and the fair value of plan assets.

According to the ROC SFAS No.23, "Interim Financial Reporting and Disclosures", the interim financial statements are not required to follow the principles outlined in the ROC SFAS No. 18, "Accounting for Pensions".

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(20) Foreign currency transactions

A. Conversion of foreign currency transactions

Foreign currency transactions should be accounted for at cost and recognized on a straight-line method recorded in NT dollars at the spot rate when the transactions occur. Any gains or losses resulting from adjustments or settlements of foreign currency assets and liabilities are credited or charged to income. All assets and liabilities stated in foreign currency are converted into New Taiwan Dollars at the exchange rate on the balance sheet date. And any gains or losses resulting from the transactions are recognized as current income.

B. Conversion of foreign subsidiaries' statements

Financial statements of foreign subsidiaries accounted for by the equity method are converted into NT dollars as follows: all assets and liabilities denominated in foreign currencies are converted into NT dollars at the exchange rate prevailing on the balance sheet date. Stockholders' equity items are converted on the historical exchange rate basis except for the opening balance of retained earnings, which is posted directly from the ending balance of last year. Income Statements items are converted by the weighted-average exchange rate of the period. Differences arising from above conversion are reported as "Cumulative Conversion Adjustments" in stockholders' equity as a separate item.

When the financial statements of a foreign operation are converted into the local currency, the foreign currency financial statements are converted into the functional currency if the foreign currency is not the functional currency. The exchange gain or loss from the conversion is recognized in the current period because it directly affects the cash flows of the foreign operation.

(21) Income taxes

The Company adopted SFAS No. 22, "Accounting for Income Taxes", which requires inter-period and intra-period tax allocations in addition to computing current period income tax payable. Furthermore, it requires recognition of temporary differences

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

between deferred income tax liabilities, deferred income tax assets, prior year's loss carry forwards and investment tax credits. The valuation allowance is recognized if evidence shows it is more likely than not that a part or all of the deferred tax assets will not be realized. The prior year's income tax expenses adjustment should be recorded as current period income tax expenses in the year of adjustment.

Deferred income tax assets and liabilities are classified as current or non-current in accordance with the underlying assets or liabilities. Deferred income taxes not relating to any assets or liabilities appearing in the financial statements are classified as current or non-current based on the expected length of time before it is settled or recovered.

The Company has adopted SFAS No. 12, "Accounting for Income Tax Credits" in dealing with income tax credits. Accordingly, the income tax credits resulting from expenditures on the purchase of equipment and technology, research and development, education training, and investment in equity are accounted for by the flow-through method.

The additional 10% income tax imposed on undistributed earnings is recognized as expense on the date of shareholders' meeting.

In accordance with Article 49 of the Financial Holding Company Act, the Company and its parent company jointly file corporation income tax returns and pay the 10% additional tax for their undistributed retained earnings since 2002 under the Integrated Income Tax System. If there are any tax effects due to the adoption of the foregoing Integrated Income Tax System, the parent company may proportionately allocate the effects on tax expense (benefit), deferred income tax and tax payable (tax refund receivable) to the Company and other subsidiaries.

Effective from January 1, 2006, the Company adopted the "Income Basic Tax Act" to calculate income basic tax except for Cathay Life (Shanghai).

(22) Capital expenditure expenses

Capital expenditure is capitalized and amortized over its useful life if it involves a significant amount and may generate revenues in future periods. Otherwise, it is expensed in the year as incurred.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(23) Separate account products

A. The Company

The Company sells investment linked products. These products are funded by the insurance premium after necessary insurance expenses. Dispersion of investment into various sub-accounts were instructed or assigned by the insured. The sub-account assets are revalued according to the ROC GAAP and applicable regulations into its fair value at financial year end.

The assets, liabilities, revenues and expenses of sub-accounts are recorded under the line items of "Separate account products assets", "Separate account products liabilities", "Separate account products revenues" and "Separate account products expenses" in accordance with the ROC "Accounting standards of separate account products by life insurance company".

B. Cathay Life (Shanghai)

Cathay Life (Shanghai) sell separate account insurance products. These products are funded by the insurance premium after necessary insurance expenses. Dispersion of investment into various sub-accounts were instructed or assigned by the insured. The related accounting treatments are in accordance with the "Accounting standards of investment-linked products by insurance companies" by Ministry of Finance People's Republic of China and the "Statements of Financial Accounting Standard" of Republic of China.

The assets, liabilities, revenues and expenses of separate accounts are recorded under the line items of "Separate account products assets", "Separate account products liabilities", "Separate account products revenues", and "Separate account products expenses" in accordance with the ROC "Accounting standards of separate account products by life insurance company".

(24) Convenience conversion into U.S. dollars

The consolidated financial statements are stated in NT dollars. Conversion of the June 30, 2006 NT dollar amounts into U.S. dollar amounts in the financial statements is included in the financial statements solely for the convenience of the readers, using the noon buying rate of NT\$32.33 to US\$1.00 effective at June 30, 2006, as provided by the Federal Reserve Bank of New York. The convenience conversion should not be construed as a representation that the NT dollars have been, or could in the future be,

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

converted into U.S. dollars at this rate or any other rate of exchange.

3. Changes in accounting and its effects

The Company and subsidiaries adopted the ROC Statements of Financial Accounting Standards No.34 "Accounting For Financial Instruments" (SFAS No.34) and No.36. "Disclosure and Presentation of Financial Instruments" (SFAS No.36) beginning on and after January 1, 2006 (the "effective date").

The above change in accounting principles increased the Company's current assets, current liability, funds and investments and stockholders' equity by NT\$5,381,277 (US\$166,448), NT\$2,061,394 (US\$63,761), NT\$10,108,650 (US\$312,671) and NT\$10,107,404 (US\$312,632) as of January 1, 2006, respectively. It also increased the company's net income and earnings per share by NT\$3,321,129 (US\$102,726) and NT\$0.65 (US\$0.02), respectively, for the six months ended June 30, 2006.

The Company adopted the R.O.C. Statement of Financial Accounting Standards No.5, "Accounting for long-term investments in stocks under the equity method" ("SFAS No.5") and No.25, "Business Combinations-Accounting Treatment under Purchase Method" to account for the difference between the acquisitions cost and the Company's share of net assets of equity investee for its financial statements beginning on and after January 1, 2006 (the "effective date"). Goodwill is not amortized. Such change in accounting principles decreased the long-term equity investments by NT\$1,401(US\$43) as of June 30, 2006, and decreased the net income by NT\$1,401(US\$43) for the six months ended June 30, 2006. The Company considers the effect insignificant.

- (1) The real estate investments are held mainly to generate rental income.
- (2) Rents from real estate investment can be paid annually, semi-annually, quarterly, monthly or in a lump sum.
- (3) No investments in real estate were pledged as collateral. Investments in real estate were fully insured.
- (4) The Company has securitized its real estate properties such as Sheraton Taipei Hotel, Taipei Xi-Men Building and Taipei Zhong Hwa Building in 2005. The accounting treatment of these transactions is conformed with the regulation of the Accounting Research and Development Foundation. Below are the relative disclosures.

The Company transferred the risk and returns of ownership of the real estate properties to the assignee and the gain on disposal of real estates under "total amount accrual method" was NT\$8,627,731 (US\$272,684).

After the REIT was issued, the Company did not participate in the original offering. Instead, the Company bought the REIT beneficiary certificates which were issued within three months from the market and its ownership of the REIT was over the 20% of the REIT fund's outstanding shares. Thus, the Company deferred the gain on disposal of real estate by percentage of REIT outstanding shares held by the company. However, as of June 30, 2006, the Company owned less than 20% of the REIT. Therefore, the previous deferred gain on disposal of real estate, which was NT\$1,773,919 (US\$54,869), has been recognized in profit or loss.

19. Capital stock

As of June 30, 2006, the total authorized shares were 5,068,616 thousand with par value of NT\$10 each.

20. Retained earnings

(1) Legal reserve

Pursuant to the ROC Company Law, 10% of the Company's net income shall be appropriated as legal reserve until the total amount of the legal reserve equals the issued share capital. This legal reserve can be used to offset deficit but cannot be used for the purpose of cash dividend distributions. However, if the total legal reserve is greater than 50% of the issued share capital, up to 50% of such excess can be capitalized if approved by the Board of Directors.

(2) Undistributed retained earnings

- A. According to the Company Law and the Company's articles of incorporation, 10% of the Company's annual earnings, after paying tax and offsetting deficit, if any, shall be appropriated as legal reserve. After distributing stock interests and 2% of the total remaining amount as a bonus distribution to employees, the remainder is distributed in accordance with the resolutions of the Board of Directors.
- B. According to applicable regulations, if the assessed undistributed retained earnings prior to 1997 exceeded 100% of the Company's paid-in capital, the Company must distribute cash dividends or stock dividends following the year of the assessment. Otherwise, income tax will be levied on each shareholder's proportion of the total undistributed retained earnings. Alternatively, the Company may pay an extra 10% income tax on the additional undistributed retained earnings.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

- C. According to the amended Income Tax Law ("Tax Law") in 1998, the Company has to pay an extra 10% income tax on all undistributed retained earnings generated during the year.
- D. Pursuant to the explanatory letter of SFB on January 27, 2006, the Company is required to appropriate a special reserve in the amount equal to unrealized loss of financial instruments expect for the legal reserve since 2007.

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

(2) Financial risk management objectives and policies

The Company's financial assets primarily consist of domestic or foreign common stocks, preferred stocks, bonds, corporate bonds, short-term notes, mortgage-backed securities, mutual funds, short-term notes, cash and cash equivalents.

The Company enters into derivative transactions such as stock options, index futures, interest rate futures, interest rate swaps, currency forwards and cross currency swap to protect against the risks of stock value, interest rate and exchange rate from investment activities.

The primary risks involved in these derivative transactions are market risk, credit risk, operational risk and liquidity risk. In addition to the risk management policies and guidance, the Company also establishes risk management systems such as the VaR model, the credit evaluation model, the integrated appraisal and collection and the concentration management systems to monitoring and managing the Company's risks.

Market Risk

Market risk is the exposure to uncertain market value of a portfolio, including interest rate risk, stock price risk and exchange rate risk, etc.. The Company conducts analysis and assessments of the investment targets before any investment decisions are made. In addition, VaR model in connection with atmosphere simulation methods, stress testing methods, back testing methods, Position Limit, VaR Limit and Loss Limit are used to effectively manage the market risk of the Company's financial assets.

Credit Risk

Credit risk is the risk of loss due to counterparty or a debtor defaulting on their contractual obligations. The Company minimizes the credit risk exposure by performing the following evaluations and controls:

The Company has taken the credit concentration index of each group into the consideration of establishing Lending Policy to prevent over-exposure. Strict credit evaluations are carried out by the Company before committing to any business lending,

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

As of June 30, 2006

mortgage lending, policy loan, and security investments. All lending are secured by land, property, plant and equipments or financial guarantees. No defaults have occurred during the current financial year.

Assessments on the mortgage repayment ability and personal credits are performed before the mortgages are granted. The total mortgage amounts granted are limited to 80% of the carrying value of the secured buildings which varies in different regions.

The credit risk level of policy loans is assessed at low, as the policy loan amounts are limited to the net realizable value of the insurance policy and hence are deemed as fully secured investments.

Operational Risk

Operational risk is the risk of loss due to inadequate or failed internal controls, employee fraud or misconduct and management negligence. To mitigate the operational risk, the Company has adopted and implemented the internal control regulations and sheets. The Company is also commenced to develop the information systems to accommodate the aforementioned policies.

Liquidity Risk

Liquidity risk is the risk stemming from the lack of marketability of an investment that can not be bought or sold quickly enough to prevent or minimize a loss. The Company primarily has sought to achieve the flexible cash flow and stable liquidity by utilizing the deposits in financial institutions, short-term notes (includes repurchase agreement) and domestic bond funds. In pursuit of these goals, the Company also conducts analysis of assets allocation, liquid asset ratio and cash flows to ensure the effectiveness and timeliness of managing liquidity risk.

The methods and assumptions used to determine the fair values of the financial instruments are as follows:

- ① Due to short maturities, the fair values of the short-term financial instruments approximate the book values and therefore the fair values are deemed equal to book values. This applies to cash, cash equivalents, receivables and payables.
- ② The carrying amounts of the guarantee deposits paid and guarantee deposits received is deemed fair values
- ② Quoted market prices, if available, are utilized as estimates of the fair value of financial instruments. If no quoted market prices exist for the Company's held-to-maturity financial assets, the fair value of financial assets has been derived based on pricing models. A pricing model incorporates all factors that market participants would consider in setting a price. The Company uses discount rates equal to the prevailing rates of return for financial instruments with similar characteristics. The characteristics involve debtor's credit standing, residual period of contracted fixed interest rates, residual period of principal repayment and currency of payment.
- The fair value of the Company's current and noncurrent financial asset or liabilities was based on market prices at the reporting date if market prices are not available. When market prices are not available, the fair value was based on relevant financial or any other information.

Cathay Life Insurance Co., Ltd. and Subsidiaries Notes to unaudited consolidated financial statements

(Expressed in thousands of dollars except for share and per share data and unless otherwise stated)

Guarantee deposits recevied	87	87	3	3	

The fair values of the financial instruments are determined by Symphox using the following methods and assumptions:

- ①Due to short maturities, the fair values of the short-term financial instruments approximate the book values and therefore the fair values are deemed equal to book values. This applies to cash and cash equivalents, financial assets at fair value through profit and loss-current, receivables and payables.
- ② Book values are deemed fair values for guarantee deposits paid and received.
