GAMANIA DIGITAL ENTERTAINMENT CO., LTD. AND SUBSIDIARIES

CONSOLIDATED FINANCIAL STATEMENTS AND REVIEW REPORT OF INDEPENDENT ACCOUNTANTS

JUNE 30, 2018 AND 2017

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REVIEW REPORT OF INDEPENDENT ACCOUNTANTS

PWCR18000085

To the Board of Directors and Shareholders of Gamania Digital Entertainment Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Gamania Digital Entertainment Co., Ltd. and subsidiaries (the "Group") as at June 30, 2018 and 2017, and the related consolidated statements of comprehensive income for the three-month and six-month periods then ended, as well as the related statements of changes in equity and of cash flows for the six-month periods then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 65 "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Notes 4(3)B and 6(8), the financial statements of certain insignificant consolidated subsidiaries and investments accounted for using equity method were not reviewed by independent accountants. Those statements reflect total assets (including investments accounted for under equity method) of $2,034,396 thousand and $2,082,066 thousand, constituting 23% and 27% of the consolidated total assets, and total liabilities of $432,186 thousand and $414,474 thousand, constituting 9% and 8% of the consolidated total liabilities as at June 30, 2018 and 2017, respectively, and total comprehensive (loss) income (including share of (loss) profit of associates and joint ventures accounted for using equity method) of ($31,867) thousand, $10,859 thousand, ($65,224) thousand and ($24,024) thousand, constituting (6%), 34%, (8%) and (42%) of the consolidated total comprehensive (loss) income for the three-month and six-month periods then ended, respectively.

Qualified Conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of insignificant consolidated subsidiaries and investments accounted for using equity method been reviewed by independent accountants, that we might have become aware of had it not been for the situation described above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2018 and 2017, and of its consolidated financial performance for the three-month and six-month periods then ended and its consolidated cash flows for the six-month periods then ended in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

Emphasis of matter –Adoption of new accounting principle

As described in Note 3(1), the Group changed its revenue recognition method on game cards from gross method to net method since the adoption of IFRS 15, 'Revenue from contracts with customers' effective January 1, 2018.

Lin, Yi-Fan   Pan, Hui-Lin

For and on behalf of PricewaterhouseCoopers, Taiwan

August 9, 2018

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

GAMANIA DIGITAL ENTERTAINMENT CO., LTD. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2018 AND 2017

(Expressed in thousands of New Taiwan Dollars, except as otherwise indicated)

(REVIEWED, NOT AUDITED)

1. HISTORY AND ORGANISATION

Gamania Digital Entertainment Co., Ltd. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.). The Company and its subsidiaries (collectively referred herein as the ‘Group’) are primarily engaged in software services of on-line game and sales of related merchandises.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were reported to the Board of Directors on August 9, 2018.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments as endorsed by FSC effective from 2018 are as follows:

New Standards, Interpretations and Amendments	Effective Date by the International Accounting Standards Board
Amendments to IFRS 2, ‘Classification and measurement of share-based payment transactions’	January 1, 2018
Amendments to IFRS 4, ‘Applying IFRS 9 Financial instruments with IFRS 4 Insurance contracts’	January 1, 2018
IFRS 9, ‘Financial instruments’	January 1, 2018
IFRS 15, ‘Revenue from contracts with customers’	January 1, 2018
Amendments to IFRS 15, ‘Clarifications to IFRS 15 Revenue from contracts with customers’	January 1, 2018
Amendments to IAS 7, ‘Disclosure initiative’	January 1, 2017
Amendments to IAS 12, ‘Recognition of deferred tax assets for unrealised losses’	January 1, 2017
Amendments to IAS 40, ‘Transfers of investment property’	January 1, 2018
IFRIC 22, ‘Foreign currency transactions and advance consideration’	January 1, 2018

New Standards, Interpretations and Amendments	Effective Date by the International Accounting Standards Board
Annual improvements to IFRSs 2014-2016 cycle-Amendments to IFRS 1, ‘First-time adoption of International Financial Reporting Standards’	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle-Amendments to IFRS 12, ‘Disclosure of interests in other entities’	January 1, 2017
Annual improvements to IFRSs 2014-2016 cycle-Amendments to IAS 28, ‘Investments in associates and joint ventures’	January 1, 2018

Except for the following, the above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

A. IFRS 9, ‘Financial instruments’

(a) Classification of debt instruments is driven by the entity’s business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.

(b) The Group has elected not to restate prior period financial statements using the modified retrospective approach under IFRS 9. For details of the significant effect as at January 1, 2018, please refer to Note 12(4)B.

B. IFRS 15, ‘Revenue from contracts with customers’ and amendments

(a) IFRS 15, ‘Revenue from contracts with customers’ replaces IAS 11, ‘Construction contracts’, IAS 18, ‘Revenue’ and relevant interpretations. According to IFRS 15, revenue is recognised when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

Step 1: Identify contracts with customer.

Step 2: Identify separate performance obligations in the contract(s).

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price.

Step 5: Recognise revenue when the performance obligation is satisfied.

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

(b) The Group has elected not to restate prior period financial statements and recognised the cumulative effect of initial application as retained earnings at January 1, 2018, using the modified retrospective approach under IFRS 15. The significant effects of adopting the modified transition as of January 1, 2018 are summarised below:

i. Under IFRS 15, liabilities in relation to the performance obligations of game services are recognised as contract liabilities, but were previously presented as unearned revenue in the balance sheet (shown as 'other current liabilities'). As of January 1, 2018, the balance would amount to $475,856.

ii. Under IFRS 15, for each specified good or service, the entity determines whether it is the principal or the agent based on the nature of the promise to the customer. The purpose of selling stored value cards to players is to offer a tool that allows them to purchase game services from the Group or another party. When a player purchases a game from another party for which the Group has no control over the service provided, then the Group merely acts as an intermediary that facilitates the transaction; the game service is entirely provided by another party. After the adoption of IFRS 15, the Group recognises payments received less amounts paid to another party as revenue.

iii. Please refer to Note 12(5) for other disclosures in relation to the first application of IFRS 15.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as follows:

New Standards, Interpretations and Amendments	Effective Date by the International Accounting Standards Board
Amendments to IFRS 9, 'Prepayment features with negative compensation'	January 1, 2019
IFRS 16, 'Leases'	January 1, 2019
Amendments to IAS 19, 'Plan amendment, curtailment or settlement'	January 1, 2019
Amendments to IAS 28, 'Long-term interests in associates and joint ventures'	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for the following, the above standards and interpretations have no significant impact to the

Group's financial condition and financial performance based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

In the first quarter of 2018, the Group reported to the Board of Directors that IFRS 16 has no material impact to the Group.

The Group will adopt the simplified retrospective transitional provisions of IFRS 16 'Leases', and classify the effects on the lease contract of lessee to January 1, 2019 in accordance with IFRS 16.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective Date by the International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2021

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standards 34, "Interim financial reporting" endorsed by the FSC.

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

(a) Financial assets and financial liabilities at fair value through profit or loss.

(b) Financial assets at fair value through other comprehensive income.

(c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

C. In adopting IFRS 9 and IFRS 15 effective January 1, 2018, the Group has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognised as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 and the second quarter of 2017 were not restated. The financial statements for the year ended December 31, 2017 and the second quarter of 2017 were prepared in compliance with International Accounting Standard 39 ('IAS 39'), International Accounting Standard 11 ('IAS 11'), International Accounting Standard 18 ('IAS 18') and related financial reporting interpretations. Please refer to Notes 12(4) and (5) for details of significant accounting policies.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

(a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

(b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated.

(c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.

(e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

(4) Foreign currency translation

Items included in the financial statements of each of the Group are measured using the currency of the primary economic environment in which the company operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Group's functional and presentation currency.

A. Foreign currency transactions and balances

(a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.

(b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

(c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

B. Translation of foreign operations

(a) The operating results and financial position of all the Group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

iii. All resulting exchange differences are recognised in other comprehensive income.

(b) When the foreign operation partially disposed of or sold is an associate, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Group retains partial interest in the former foreign associate after losing significant influence over the former foreign associate, such transactions should be accounted for as disposal of all interest in these foreign operations.

(c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operations.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets:

(a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;

(b) Assets held mainly for trading purposes;

(c) Assets that are expected to be realised within twelve months from the balance sheet date;

(d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities:

(a) Liabilities that are expected to be settled within the normal operating cycle;

(b) Liabilities arising mainly from trading activities;

(c) Liabilities that are to be settled within twelve months from the balance sheet date;

(d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

Effective 2018

A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using settlement date accounting.

C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.

(8) Financial assets at fair value through other comprehensive income

Effective 2018

A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.

C. They are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value. The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Accounts and notes receivable

A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.

B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For financial assets measured at fair value through other comprehensive income, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

A. The contractual rights to receive cash flows from the financial asset expire.

B. The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows from the financial asset have been transferred and, the Group has not retained control of the financial asset.

(12) Inventories

Inventories are stated at the lower of cost and net realisable value. The original costs are the cost to obtain the assets. Cost is determined using the weighted-average method. The item by item approach is used in applying the lower of cost and net realizable value. Net realisable value is the estimated selling price in the ordinary course of business, less the applicable variable selling expenses.

(13) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than through continuing use, and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell.

(14) Investments accounted for under the equity method / associates

A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 per cent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognised at cost.

B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or/constructive obligations or made payments on behalf of the associate.

C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognises change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.

D. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest.

F. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, then the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, then the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss proportionately.

(15) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost.

B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are evaluated, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings	3～55 years
Machinery and equipment	2～6 years
Transportation equipment	5 years
Office equipment	2～4 years
Leasehold assets	2～6 years
Other equipment	2～4 years

(16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 4 ~ 55 years.

(17) Intangible assets

A. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

B. Software

Costs of software are stated at cost and amortised under the straight-line basis over the estimated useful lives.

C. Agency

Agency prepayments for operating online game software are capitalised and amortised based on the period of the contract or deducted based on actual units of play.

D. Other intangible assets

Other intangible assets, which are trademarks, outsourcing for mobile games' production and unamortised expenses, have definite useful lives and are amortised on a straight-line basis over their estimated useful lives.

(18) Lease

Lease income from an operating lease (net of any incentives given to the lessee) or payments made under an operating lease (net of any incentives received from the lessor) is recognised in profit or loss on a straight-line basis over the lease term.

(19) Impairment of non-financial assets

A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

B. The recoverable amounts of goodwill and intangible assets that have not yet been available for use shall be evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.

C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(20) Borrowings

Borrowings comprise short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(21) Notes and accounts payable

A. Accounts payable are liabilities for purchases of goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(22) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(23) Financial liabilities and equity instruments - Bonds payable

A. Ordinary corporate bonds issued by the Group are initially recognised at fair value, net of transaction costs incurred. Ordinary corporate bonds are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortised in profit or loss as an adjustment to the 'finance costs' over the period of bond circulation using the effective interest method.

B. Convertible corporate bonds preference shares issued by the Group contain conversion options (that is, the bondholders have the right to convert the bonds into the Group's common shares by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Group classifies the bonds payable and derivative features embedded in convertible corporate bonds on initial recognition as a financial asset, a financial liability or an equity instrument ('capital surplus—stock warrants') in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability and an equity instrument. Convertible corporate bonds are accounted for as follows:

(a) Call options and put options embedded in convertible corporate bonds are recognised initially at net fair value as 'financial assets or financial liabilities at fair value through profit or loss'. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognised as ‘gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss’.

(b) Bonds payable of convertible corporate bonds is initially recognised at fair value and subsequently stated at amortised cost. Any difference between the proceeds and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortised in profit or loss as an adjustment to the ‘finance costs’ over the period of bond circulation using the effective interest method.

(c) Conversion options embedded in convertible corporate bonds issued by the Group, which meet the definition of an equity instrument, are initially recognised in ‘capital surplus—stock warrants’ at the residual amount of total issue price less amounts of ‘financial assets or financial liabilities at fair value through profit or loss’ and ‘bonds payable—net’ as stated above. Conversion options are not subsequently remeasured.

(d) Any transaction costs directly attributable to the issuance of convertible corporate bonds are allocated to the liability and equity components in proportion to the allocation of proceeds.

(e) When bondholders exercise conversion options, the liability component of the bonds (including ‘bonds payable and ‘financial assets or financial liabilities at fair value through profit or loss’) shall be remeasured on the conversion date. The book value of common shares issued due to the conversion shall be based on the adjusted book value of the above mentioned liability component plus the book value of capital surplus - stock warrants.

(24) <u>Employee benefits</u>

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plan

For defined contribution plan, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plan is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.

ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.

iii. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group recognises expense when it can no longer withdraw an offer of termination benefits or it recognises related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(25) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

(26) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.

B. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

F. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the tax credits can be utilised.

G. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

H. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognises the effect of the change immediately in the interim period in which the change occurs.

The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

(27) Share capital

A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

B. Where the Company repurchases the Company’s equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company’s equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company’s equity holders.

(28) Dividends

Dividends are recorded in the Company’s financial statements in the period in which they are approved by the Company’s shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(29) Revenue recognition

A. Sales of goods

(a) The Group is engaged in online games and mobile phone games and sales of peripheral products of the games. Sales are recognised when control of the products has transferred, that is, the customer has control of the product and obtained most residual benefit, and there is no unfulfilled obligation that could affect the customer acceptance of the products.

(b) Revenue is measured at the fair value of the consideration received or receivable taking into account business tax, returns, rebates and discounts for the sale of goods based on the contract price.

(c) The Group recognises the collections of payments for game card purchases or value-added by players as contract liabilities, and amortises those amounts as revenue over the period of the services or the estimated useful period of the virtual items, when they are actually used.

(d) The Group recognised accounts receivable when the control of product has been transferred and has the right to collect price without condition. The accounts receivable has usually a short-term period and does not contain significant financial component. However, for online games and mobile phone games, the Group collects the price in advance upon sale, and recognises the contract liability.

B. Sales of services

(a) The Group recognises customer service revenue and advertisement revenue when the individual obligation is fulfilled at a point in time or fulfilled over time. Service revenue is based on contract price.

(b) The game card sold by the Group is a value-added instrument, while the online game service will be provided to players by third party subsequently. Before the service is transferred to players and the Group does not control the service which shall be provided by the third party, the game card is an intermedium for players to purchase online game service which shall be provided by the third party. The Group recognises revenue at net amount based on the price received less the amount paid to the third party.

(30) Business combinations

A. The Group uses the acquisition method to account for business combinations. The consideration transferred for an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the acquisition date, plus the fair value of any assets and liabilities resulting from a contingent consideration arrangement. All acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. For each business combination, the Group measures at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to the proportionate share of the entity's net assets in the event of liquidation at either fair value or the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other non-controlling interests should be measured at the acquisition-date fair value.

B. The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previous equity interest in the acquiree over the fair value of the identifiable assets acquired and the liabilities assumed is recorded as goodwill at the acquisition date. If the total consideration transferred, non-controlling interest in the acquiree recognised and the fair value of previously held equity interest in the acquiree is less than the fair value of the identifiable assets acquired and the liabilities assumed, the difference is recognised directly in profit or loss on the acquisition date. The duration of fair value measurement of identifiable assets and assumed liabilities of acquiree may not exceed 1 year from the acquisition date.

(31) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the related information is addressed below:

(1) Critical judgments in applying the Group's accounting policies

Revenue recognition on a net/gross basis

The Group determines whether the nature of its performance obligation is to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for the other party to provide those goods or services (i.e. the Group is an agent) based on the transaction model and its economic substance. The Group is a principal if it controls a promised good or service before it transfers the good or service to a customer. The Group recognises revenue at gross amount of consideration to which it expects to be entitled in exchange for those goods or services transferred. The Group is an agent if its performance obligation is to arrange for the provision of goods or services by another party. The Group recognises revenue at the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the other party to provide its goods or services.

Indicators that the Group controls the good or service before it is provided to a customer include the following:

A. The Group is primarily responsible for the provision of goods or services;

B. The Group assumes the inventory risk before transferring the specified goods or services to the customer or after transferring control of the goods or services to the customer.

C. The Group has discretion in establishing prices for the goods or services.

(2) Critical accounting estimates and assumptions

A. Revenue recognition

The Group recognises the collections of payments for game card purchases or value-added by players as contract liabilities, and amortises those amounts as revenue over the period of the services or the estimated useful period of the virtual items, when they are actually used. The Group estimates the deferred amount and delivery period based on operating history and other known factors, and audits its rationale periodically.

As of June 30, 2018, the Group recognised deferred contract liability in the amount of $634,469.

B. Impairment assessment of licence fees

The impairment assessment of licence fees depend on the Group's subjective judgement. The recoverable amount is determined based on estimated online game revenue arising from expected game points used by players and projected expenditures.

As of June 30, 2018, the Group recognised licence fees, net of impairment, amounting to $169,102.

C. Financial assets—fair value measurement of unlisted stocks without active market

The fair value of unlisted stocks held by the Group that are not traded in an active market is determined considering those companies' recent fund raising activities and technical development status, fair value assessment of other companies of the same type, market conditions and other economic indicators existing on balance sheet date. Any changes in these judgements and estimates will impact the fair value measurement of these unlisted stocks. Please refer to Note 12(3) for the financial instruments fair value information.

As of June 30, 2018, the carrying amount of unlisted stocks without active market was $418,577.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	June 30, 2018	December 31, 2017	June 30, 2017
Cash on hand and petty cash	$ 1,494	$ 1,495	$ 1,530
Checking accounts and demand deposits	1,568,936	1,267,434	1,705,383
Cash equivalents - time deposits	586,546	111,101	204,642
	$ 2,156,976	$ 1,380,030	$ 1,911,555

A. The Group deals with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. Details of the Group's cash and cash equivalents pledged to others as collateral are provided in Note 8.

(2) Financial assets and liabilities at fair value through profit or loss-current

Items	June 30, 2018
Financial assets designated as at fair value through profit or loss	
Embedded derivatives	
(Redemption and put options of convertible bonds)	($ 2,590)
Valuation adjustment	2,590
	$ -

A. The Group recognised net loss of $0 and $5 on financial assets designated as at fair value through profit or loss for the three months ended June 30, 2018 and six months ended June 30, 2018, respectively.

B. For information as of December 31, 2017 and June 30, 2017, please refer to Note 12(4).

(3) Notes and accounts receivable

	June 30, 2018	December 31, 2017	June 30, 2017
Notes receivable	$ 63	$ 238	$ 53
Accounts receivable	1,096,838	2,317,217	1,148,661
Less: Allowance for doubtful accounts	(45,878)	(106,902)	(105,563)
Allowance for sales returns and discounts	(2,470)	(537)	(537)
	1,048,490	2,209,778	1,042,561
Overdue receivables (shown as other non-current assets)	99,830	99,830	102,539
Less: Allowance for doubtful accounts	(99,830)	(99,830)	(102,539)
	$ 1,048,490	$ 2,209,778	$ 1,042,561

A. The ageing analysis of accounts receivable that were past due but not impaired is as follows:

	June 30, 2018	December 31, 2017	June 30, 2017
Not past due	$ 982,066	$ 2,037,783	$ 919,811
Up to 30 days	27,179	48,155	54,042
31~60 days	10,427	23,045	9,452
61~90 days	7,967	6,908	3,700
91~120 days	3,779	8,515	21,802
Over 121 days	65,420	192,811	139,854
	$ 1,096,838	$ 2,317,217	$ 1,148,661

The above ageing analysis was based on past due date.

B. As at June 30, 2018, December 31, 2017 and June 30, 2017, the Group has no notes receivable past due.

C. The Group does not hold any collateral. Further, the Group has no notes and accounts receivable pledged to others.

D. As at June 30, 2018, December 31, 2017 and June 30, 2017, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes receivable were $63, $238 and $53, and accounts receivable were $1,048,490, $2,209,778 and $1,042,561, respectively.

E. Information relating to credit risk is provided in Note 12(2).

(4) Other accounts receivable

	June 30, 2018	December 31, 2017	June 30, 2017
Other receivables	$ 574,594	$ 66,118	$ 60,473
Less: Allowance for bad debts	(65,430)	(2,723)	(2,303)
	$ 509,164	$ 63,395	$ 58,170

A. The ageing analysis of other receivables that were past due but not impaired is as follows:

	June 30, 2018	December 31, 2017	June 30, 2017
Not past due	$ 428,378	$ 58,220	$ 49,462
Up to 30 days	14,808	210	1,039
31 to 60 days	7,868	228	143
61 to 90 days	2,767	99	118
91 to 120 days	1,959	48	95
Over 121 days	118,814	7,313	9,616
	$ 574,594	$ 66,118	$ 60,473

The above ageing analysis was based on past due date.

B. The Group does not hold any collateral for other accounts receivable and has not pledged to others any other accounts receivable.

C. As at June 30, 2018, December 31, 2017 and June 30, 2017, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's other receivables were $509,164, $63,395 and $58,170, respectively.

D. Information relating to credit risk is provided in Note 12(2).

(5) Inventories

	June 30, 2018		
	Cost	Allowance for obsolescence and market value decline	Book value
Merchandise inventory	$ 84,978	($ 2,173)	$ 82,805

	December 31, 2017		
	Cost	Allowance for obsolescence and market value decline	Book value
Merchandise inventory	$ 73,404	($ 2,323)	$ 71,081

	June 30, 2017		
	Cost	Allowance for obsolescence and market value decline	Book value
Merchandise inventory	$ 34,184	($ 2,381)	$ 31,803

Expenses and losses incurred on inventories for the period:

	Three months ended June 30,	
	2018	2017
Cost of goods sold	$ 107,912	$ 228,094
Gain on reversal of inventory	(20)	(21)
	$ 107,892	$ 228,073

	Six months ended June 30,	
	2018	2017
Cost of goods sold	$ 231,489	$ 447,831
(Gain on reversal of) loss on provision for inventory obsolescence and market price decline	(150)	540
	$ 231,339	$ 448,371

Note: The Group reversed a previous inventory write-down which was accounted for as reduction of cost of goods sold in the amount of $20, $21 and $150 as certain inventory which were previously provided with allowance were sold during the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017, respectively.

(6) Prepayments

	June 30, 2018	December 31, 2017	June 30, 2017
Prepayments to suppliers	$ 401,140	$ 190,554	$ 78,485
Prepaid expenses	101,632	84,180	48,895
Excess business tax paid	89,340	21,392	30,291
Others	6,889	9,308	11,578
	$ 599,001	$ 305,434	$ 169,249

(7) Financial assets at fair value through other comprehensive income

Items	June 30, 2018
Non-current items:	
Equity instruments	
Emerging stocks	$ 20,000
Unlisted stocks	609,031
	629,031
Valuation adjustment	(200,324)
	$ 428,707

A. The Group has elected to classify investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to $428,707 as at June 30, 2018.

B. The Group recognised $12,482 and ($107,129) in other comprehensive income for the fair value change of the financial assets for the three months ended June 30, 2018 and six months ended June 30, 2018, respectively.

C. As at June 30, 2018, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Group was $428,707.

D. The Group has no financial assets at fair value through other comprehensive income pledged to others as collateral.

E. Information relating to credit risk is provided in Note 12(2).

F. Information on December 31, 2017 and June 30, 2017 is provided in Note 12(4).

(8) Investments accounted for under the equity method

A. List of long-term investments

A. The Company issued the first domestic secured convertible bonds as approved by the Financial Supervisory Commission, Securities and Futures Bureau, No. 1040024074 on July 2, 2015.

The terms are as follows:

(a) Total issuance: 700,000

(b) Coupon rate: 0%

(c) Issuance duration: 3 years (July 15, 2015 to July 15, 2018)

(d) Conversion period: The bondholders have the right to ask for conversion of the bonds into common shares of the Company during the period from the date (August 16, 2015) after one month of the bonds issue to the maturity date (July 15, 2018), except (1) the stop transfer period as specified in the terms of the bonds or the laws/regulations. (2) the book closure date of the issuance of bonus shares, and of cash dividends, the period between the date that is 15 business days before the book closure date of a capital increase to the ex-right date, the period between the date that is 15 business days before the date of merger and demerger to the effective date, the period between the record date of a capital reduction and the prior day before the commencement of stock trading after stocks are repurchased.

(e) Conversion price and adjustment: The conversion price was $41.5 (in dollars) per share at issuance. After the issuance, except securities with conversion rights or warrants convertible to ordinary shares, the applicable conversion price was subject to adjustments set out in the indenture.

(f) Redemption

i. The Company may inform creditors within 30 trading days after the issuance and repurchase all the bonds outstanding in cash at the bonds' face value at any time after the following event occurs: the closing price of the Company's common shares is above the then conversion price by 30% for 30 consecutive trading days during the period from the date after one month of the bonds issue to 40 days before the maturity date (August 16, 2015 to June 5, 2018).

ii. The Company may inform creditors any time after the balance sheet date to repurchase all the bonds outstanding in cash at the bonds' face value or repurchase all the bonds at the current conversion price within 1 month after the notice after the following events occur: the outstanding balance of the bonds is less than 10% of total initial issue amount during the period from the date after three months of the bonds issue to 40 days before the maturity date (August 16, 2015 to June 5, 2018).

(g) Put options:

The bondholders have the right to require the Company to redeem any bonds in cash at 101% of the bonds' face value on the date after two years from the issue date (July 15, 2017).

(h) Rights and obligations after conversion:

The rights and obligations of the new shares converted from the bonds are the same as the issued and outstanding common shares.

(i) Under the terms of the bonds, all bonds redeemed (including bonds repurchased from the Taipei Exchange), matured and converted are retired and not to be re-issued; all rights and obligations attached to the bonds are also extinguished.

(j) As at June 30, 2018, the bonds with par value of $699,700 have been converted into 17,895 thousand shares.

B. Regarding the issuance of convertible bonds, the equity conversion options amounting to $10 were separated from the liability component and were recognised in 'capital surplus - stock warrants' in accordance with IAS 32. The call options and put options embedded in bonds payable were separated from their host contracts and were recognised in 'financial assets or liabilities at fair value through profit or loss' in net amount in accordance with IAS 39 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts. The effective interest rate of the bonds payable after such separation is 1.57%

.

(18) Pensions

A. Defined benefit plan

(a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is in sufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contribution for the deficit by next March.

(b) The pension costs under the defined benefit pension plan of the Company for the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017 were $164, $145, $328 and $290, respectively.

(c) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2019 amount to $1,349.

B. Defined contribution plan

(a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The Company's mainland subsidiaries, Gamania Digital Entertainment (Beijing) Co., Ltd., Legion Technology (Shanghai) Co., Ltd. and Jollywiz Digital Business Co., Ltd., have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of employees' monthly salaries and wages. The contribution percentage for the six months ended June 30, 2018 and 2017 were both 20%~22%. Other than the monthly contributions, the Group has no further obligations.

(c) Gamania Digital Entertainment (H.K.) Co., Ltd., Gash Point (Hong Kong) Company Limited, Gash Point (Japan) Co., Ltd., Gash Point Korea Co., Ltd., Joymobee Entertainment Co., Ltd., Hapod Digital Technology Co., Ltd., Jollywiz International (HK) Co., Ltd., Madsugr Digital Technology (HK) Co., Ltd. and CoCo Digital Technology (HK) Co., Ltd. provide pension reserves annually for their employees in accordance with the local regulations.

(d) The pension costs under the defined contribution pension plan of the Group for the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017 were $6,875, $7,566, $14,714 and $14,352, respectively.

(19) Common stock

A. As of June 30, 2018, the Company's authorised capital was $2,500,000, consisting of 250 million shares of ordinary stock (including 12 million shares reserved for employee stock options), and the paid-in capital was $1,754,885 with a par value of $10 (in dollars) per share. All proceeds from shares issued have been collected.

Movements in the number of the Company's ordinary shares (in thousands) outstanding are as follows:

	2018	2017
At January 1	168,597	151,188
Conversion of convertible bonds	460	-
Purchase of treasury shares	-	(26)
At June 30	169,057	151,162

B. Treasury shares

(a) Reason for share reacquisition and movements in the number of the Company's treasury shares are as follows:

		June 30, 2018	
Name of company holding the shares	Reason for reacquisition	Number of shares (shares in thousands)	Carrying amount
The Company	To be reissued to employees	6,432	$ 186,226

		December 31, 2017	
Name of company holding the shares	Reason for reacquisition	Number of shares (shares in thousands)	Carrying amount
The Company	To be reissued to employees	6,432	$ 186,226

		June 30, 2017	
Name of company holding the shares	Reason for reacquisition	Number of shares (shares in thousands)	Carrying amount
The Company	To be reissued to employees	6,432	$ 186,226

(b) Pursuant to the R.O.C. Securities and Exchange Law, the number of shares bought back as treasury share should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realised capital surplus.

(c) Pursuant to the R.O.C. Securities and Exchange Law, treasury shares should not be pledged as collateral and is not entitled to dividends before it is reissued.

(d) Pursuant to the R.O.C. Securities and Exchange Law, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired.

(20) Capital surplus

A. Pursuant to the R.O.C. Company Law, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

B. When it is resolved by the shareholders at their shareholders' meeting, legal reserve and whole or part of capital reserve arising from the following items can be used to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit:

(a) Paid-in capital in excess of par value on issuance of common stocks; and

(b) Donations.

(21) Unappropriated retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior year's operating losses, then 10% of the remaining amount shall be set aside as legal reserve until the legal reserve equals the total capital stock balance, and appropriate or reverse for special reserve as required by the operating needs of the Company or regulations when necessary. The remainder, if any, to be retained or to be appropriated shall be proposed by the Board of Directors and to be resolved by the stockholders at the stockholders' meeting.

B. The Company's dividend policy adopts conservatism principle, with consideration of the Company's profit, financial structure and future development plans, at least 10% of the Company's distributable earnings as of the end of the period shall be appropriated as cash dividends.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

(b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

E. On June 8, 2017, the shareholders during their meeting resolved to offset the deficit of $307,946 with legal reserve of $51,971, capital surplus of $191,319, and the reversal of special reserve of $64,656 for the year ended December 31, 2016.

F. On June 13, 2018, the shareholders during their meeting resolved to offset 2017 deficit by using capital surplus in the amount of $14,270, and distribute cash dividends from capital surplus amounting to $84,298 at $0.5 per share.

G. Information about the appropriation approved by the Board of Directors and resolved by the shareholders and appropriation of employees' bonus and directors' and supervisors' remuneration will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

H. For the information relating to employees' compensation and directors' and supervisors' remuneration, please refer to Note 6(27).

A. According to the Articles of Incorporation of the Company, a ratio of profit of the current year distributable, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall be 10%~15% for employees' compensation and shall not be higher than 2% for directors' and supervisors' remuneration.

B. For the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017, employees' compensation was accrued at $76,125, $1,800, $134,649 and $8,131, respectively; directors' remuneration was accrued at $14,734, $360, $26,930 and $1,626, respectively. The aforementioned amounts were recognised in salary expenses. The Group has no profit for the year ended December 31, 2017 and accordingly did not appropriate compensation and remuneration to directors and supervisors.

For the six months ended June 30, 2018, the employees' compensation and directors' remuneration were estimated and accrued based on the Company's Articles of Incorporation of distributable profit of current year as of the end of reporting period.

Information about the appropriation of employees' bonus and directors' and supervisors' remuneration by the Company as proposed by the Board of Directors and resolved by the stockholders will be posted in the 'Market Observation Post System' at the website of the Taiwan Stock Exchange.

(28) Income tax

A. Income tax expense

(a) Components of income tax expense:

	Three months ended June 30,	
Current tax:	2018	2017
Current tax on profit for the period	$ 115,792	$ 17,705

(3) Significant transactions and balances with related parties

A. Operating revenue

	Three months ended June 30,	
	2018	2017
Sales of goods:		
Associates	$ 138	$ 49,624
Sales of services:		
Associates	$ 8,414	$ 6,578
Wanin	18,137	-
	$ 26,551	$ 6,578

	Six months ended June 30,	
	2018	2017
Sales of goods:		
Associates	$ 297	$ 76,793
Sales of services:		
Associates	$ 16,282	$ 13,111
Wanin	35,770	-
	$ 52,052	$ 13,111

Sales of goods are on-line games revenue generated from prepaid cards sold by associates, and are in accordance with mutual agreements. The online games revenue has no similar transactions to compare with, and the payment term is the same with non-related parties.

Sales of services are service revenue arising from a certain percentage of value-add service provided to related parties, customer services and production of advertisements that are in accordance with mutual agreements.

B. Operating costs

	Three months ended June 30,	
	2018	2017
Costs of point service:		
Associates	$ -	$ 13,412
Wanin	-	56,577
Costs of customer service hotline:		
Associates	24,831	20,452
Mobile service costs:		
Associates	8,874	1,712
Programs cost:		
Associates	442	630
Advertising costs:		
Associates	-	188
	$ 34,147	$ 92,971

	Six months ended June 30,	
	2018	2017
Costs of point service:		
Associates	$ -	$ 30,949
Wanin	-	56,577
Costs of customer service hotline:		
Associates	53,053	40,900
Mobile service costs:		
Associates	15,579	3,429
Programs cost:		
Associates	727	1,122
Advertising costs:		
Associates	165	188
	$ 69,524	$ 133,165

Costs of point service are service cost for splitting revenue from stored values, costs of customer service hotline are costs for hotline, mobile service costs are service cost for splitting revenue from mobile service and network usage cost of mobile games and programs costs are generated from internet programs and TV programs. All are determined in accordance with mutual agreement. Advertisement costs are the costs incurred for advertising and determined based on mutual agreement.

C. Operating expense (shown in selling expenses and general and administrative expenses)

	Three months ended June 30,	
	2018	2017
Other related party		
Gamania Cheer Up Foundation	$ 30,000	$ 1,500
Wanin	135	-
Associates	5,558	8,459
	$ 35,693	$ 9,959

	Six months ended June 30,	
	2018	2017
Other related party		
Gamania Cheer Up Foundation	$ 32,500	$ 6,000
Wanin	135	-
Associates	14,168	15,726
	$ 46,803	$ 21,726

The above includes donation to other related party and expenses paid to associates for the Company's advertisements and game development. Except for donation, expenses were based on mutual agreements.

D. Rental revenue (shown in other income)

	Three months ended June 30, 2018	Three months ended June 30, 2017
Associates	$ 2,857	$ 3,335

	Six months ended June 30, 2018	Six months ended June 30, 2017
Associates	$ 5,717	$ 5,812

Rental revenue arose from leasing offices and computer facilities and data transmission circuit devices to associates. The rental is based on mutual agreement, and is collected monthly based on the agreement. The offices' contract period is from January 1, 2017 to December 31, 2018, and the contract period for computer facilities and data transmission circuit devices is from October 1, 2017 to December 31, 2018.

E. Receivables

	June 30, 2018	December 31, 2017	June 30, 2017
Accounts receivable:			
Associates	$ 7,035	$ 39,936	$ 27,100
Wanin	-	42	-
	$ 7,035	$ 39,978	$ 27,100
Other receivables:			
Associates	$ 39,217	$ 3,814	$ 17,733

Accounts receivable are mainly from sales of goods and customer services. Accounts receivable are not pledged as collateral, do not bear interest and have no provision.

Other receivables arise mainly from rent receivable, payments on behalf of others, sale of services and proceeds from disposal of equipment.

	June 30, 2018	December 31, 2017	June 30, 2017
Not later than one year	$ 33,185	$ 18,968	$ 15,246
Later than one year but not later than five years	64,526	108,183	46,324
	$ 97,711	$ 127,151	$ 61,570

B. The Group contracted the use of cable lines, T1 and T3, with rental charges based on utilisation. In addition, the Group contracted with several on-line game vendors and will pay royalty based on actual usage.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

On August 9, 2018, the Board of Directors approved the following significant events:

(1) The Company's subsidiary, Gama Pay Co., Ltd., plans to reduce capital to offset against accumulated deficit in the amount of $100,000, in order to improve financial structure and optimize operating efficiency. After the reduction, the paid-in capital will be $600,000.

(2) The subsidiary, Gamania International Holdings Ltd., plans to dispose 23,626 thousand shares of Mission Worldwide Group Ltd.'s shares amounting to USD 3,161 thousand.

(3) The subsidiary, Gash Point Co., Ltd., plans to acquire Jsdway Digital Technology Co., Ltd.'s points distribution business. This acquisition will be negotiated within the value of stock right based on the appraisal report issued by the third party, and the acquisition price is not higher than $28,000.

(4) The Company plans to increase the investment in the subsidiary, HaPod Digital Technology Co., Ltd., amounting to USD 0.7 million, in order to meet its capital requirment through the subsidiary, Gamania International Holdings Ltd. The Company's shareholding ratio will remain 100% after the capital increase is completed.

(5) To enhance the Company's operating efficiency, the Company plans to acquire Jollybuy e-commerce platform and its related brands and licenses, which are developed by the subsidiary, Jollywiz Digital Technology Co., Ltd., through the subsidiary, Redgate Games Co., Ltd., in the amount of $36,000. Further, the Company will acquire a 20% equity interest in the investee, Polysh Co., Ltd. (MARAIS) amounting to $10,000.

(6) The Company plans to increase the investment in the subsidiary, Redgate Games Co., Ltd., in the amount of $80,000, in order to meet Redgate Games Co., Ltd.'s capital requirment. The Company's shareholding ratio will remain 100% after the capital increase is completed.

(7) The subsidiary, Gamania Asia Investment Co., Ltd., plans to subscribe to Aotter Inc.'s capital increase in the amount of $10,000. The Company's shareholding ratio will be 20.8% after the capital increase is completed.

(8) The Company plans to increase the investment in the subsidiary, Gamania Asia Investment Co., Ltd., in the amount of $10,000, in order to meet Gamania Asia Investment Co., Ltd.'s capital requirment. The Company's shareholding ratio will remain 100% after the capitail increase is completed.

(9) The Company considers to transfer repurchased treasury stocks to employees with par value of $29 per share amounting to 4.2 million shares, with the record date of August 9, 2018.

12. OTHERS

(1) Capital risk management

The Group's principal objectives when managing capital are to maintain an integrity credit rating and a good capital structure to support operating and maximum stockholders' equity. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders.

(2) Financial instruments

A. Financial instruments by category

	June 30, 2018	December 31, 2017	June 30, 2017
Financial assets			
Financial assets at fair value through profit or loss			
Financial assets designated as at fair value through profit or loss on initial recognition	$ -	$ 5	$ -
Financial assets at fair value through other comprehensive income			
Designation of equity instrument	$ 428,707	$ -	$ -
Available-for-sale financial assets	$ -	$ 534,563	$ 522,595
Financial assets at amortised cost			
Cash and cash equivalents	2,156,975	1,380,030	1,911,555
Notes receivable	63	238	53
Accounts receivable (including related parties)	1,055,525	2,249,756	1,069,661
Other receivables (including related parties)	548,381	67,209	75,903
Guarantee deposits paid	22,249	25,456	24,194
Other financial assets	132,605	92,746	39,286
	$ 3,915,798	$ 3,815,435	$ 3,120,652

	June 30, 2018	December 31, 2017	June 30, 2017
Financial liabilities			
Financial liabilities at amortised cost			
Short-term borrowings	$ 61,042	$ 840,589	$ 737,326
Notes payable	2,485	1,746	1,506
Accounts payable (including related parties)	645,716	1,579,120	1,004,764
Other accounts payable (including related parties)	1,921,580	482,614	318,126
Corporate bonds payable (including current portion)	300	18,154	688,950
Long-term borrowings (including current portion)	1,290,460	1,497,337	1,800,975
Guarantee deposits received	688	-	-
	$ 3,922,271	$ 4,419,560	$ 4,551,647

B. Financial risk management policies

The Group's activities expose it to a variety of financial risks, including market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's risk management program considers the effect of economic environment, competition and market value risk. The Group attains to the best risk position, holds appropriate liquidity position and centers on management of all the market risks. To reach the objective of risk management, the Group's hedged activities are focused on the market value risk and the cash flow risk.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

i. Each of the entities in the Group operates in different countries and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. To manage their foreign exchange risk arising from future commercial transactions and recognised assets and liabilities, the Group set the natural hedging as principle. Foreign exchange risk arises when future commercial transactions, recognised assets or liabilities are denominated in a currency that is not the entity's functional currency.

iii. The Group’s businesses involve some non-functional currency operations. The information on assets and liabilities denominated in foreign currencies of each entity in the Group whose values would be materially affected by the exchange rate fluctuations is as follows:

	June 30, 2018		
	Foreign currency amount (in thousands)	Exchange rate	Book value (NTD)
(Foreign currency: Functional currency)			
Financial assets			
Monetary items			
USD:NTD	$ 23,749	30.4600	$ 723,395
HKD:NTD	4,678	3.8810	18,155
HKD:USD (Note)	76,624	0.1274	297,347

Monetary items			
USD:NTD	1,101	30.4200	33,492
HKD:USD (Note)	6,071	0.1281	23,657

Note: Since the functional currency of consolidated entity was not NTD, it should be considered when disclosed.

iv. The total exchange gain (loss), including realised and unrealised arising from significant foreign exchange variation on the monetary items held by the Group for the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017, amounted to $18,532, ($18,946), $11,403 and ($18,788), respectively.

v. Analysis of foreign currency market risk arising from significant foreign exchange rate fluctuations is as follows:

(Foreign currency: Functional currency)	Six months ended June 30, 2018 Sensitivity analysis Extent of variation	 Effect on profit or loss	 Effect on other comprehensive income
Financial assets			
Monetary items			
USD:NTD	1%	$ 7,234	$ -
HKD:NTD	1%	182	-

Note: Since the functional currency of consolidated entity was not NTD, it should be considered when disclosed.

Price risk

i. The Group's equity securities, which are exposed to price risk, are the held available-for-sale financial assets and financial assets at fair value through profit or loss. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

ii. The Group's investments in equity securities comprise shares issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. However, the Group has set stop-loss amounts for those assets; therefore, no material market risk is expected. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant for the six months ended June 30, 2018 and 2017, other components of equity would have increased/decreased by $4,287 and $4,810, respectively, as a result of gains/losses on equity securities classified as available-for-sale.

Cash flow and fair value interest rate risk

i. The Group's interest rate risk arises from borrowings issued at variable rates and expose the Group to cash flow interest rate risk. The interest rate for short-term borrowings of the Group are mainly floating rate and for long-term borrowings are fixed rate and variables. During the six months ended June 30, 2018 and 2017, the Group's borrowings at variable rate were denominated in NTD and RMB.

ii. At June 30, 2018 and 2017, if interest rates on borrowings had been 1% higher/lower with all other variables held constant, post-tax profit for the six months ended June 30, 2018 and 2017 would have been $142 and $102 lower/higher, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

Effective 2018

i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at fair value through profit or loss and at fair value through other comprehensive income.

ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on accounting and administrator segment ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored. Credit risk mainly arose from cash and cash equivalent and receivables generated from operating activity. Only banks and financial institutions with optimal credit ratings are accepted.

iii. The Group adopts assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition. When the payment is past due 30 days based on the contract terms, there is a significant increase in credit risk on financial assets since initial recognition.

iv. The Group adopts the assumption under IFRS 9, that is, the default occurs when the Group expects that payments cannot be collected and reclassified as overdue receivables.

v. The Group classifies customer's accounts receivable and contract assets in accordance with product types. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.

vi. The Group uses the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable, and other accounts receivable. On March 31, 2018, the provision matrix is as follows:

	June 30, 2018		
	Expected loss rate	Total book value	Loss allowance
Not past due	0%~0.14%	$ 1,410,444	$ 758
Up to 30 days	0%~0.20%	41,987	267
31 to 60 days	0%~12.78%	18,295	376
61 to 90 days	0%~14.76%	10,734	406
91 to 120 days	0%~66%	5,738	771
Over 120 days	52.05%~100%	184,234	108,730
		$ 1,671,432	$ 111,308

Note: The above does not include overdue receivables amounting to $99,830. All the overdue receivables had been provided with loss allowance.

vii. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable (including overdue receivables) and other accounts receivable are as follows:

	2018		
	Accounts receivable	Other receivables	Total
At January 1_IAS 39	$ 206,732	$ 2,723	$ 209,455
Adjustments under new standards	-	-	-
At January 1_IFRS 9	206,732	2,723	209,455
Provision for impairment	1,538	-	1,538
Allowance for doubtful accounts of accounts receivable reclassified to other accounts receivable	(62,707)	62,707	-
Effect of exchange rate changes	145	-	145
At June 30	$ 145,708	$ 65,430	$ 211,138

viii. Credit risk information of 2017 is provided in Note 12(4).

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by the capital management department. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure that it has sufficient cash to meet operational needs.

ii. The table below is the Group's non-derivative financial liabilities which is presented based on the remaining period at the balance sheet date to the contract maturity date and undiscounted maturity amount based on the maturity date.

Non-derivative financial liabilities:

June 30, 2018	Less than 1 year	Between 1 and 3 years	Over 3 years
Short-term borrowings	$ 61,042	$ -	$ -
Notes payable	2,485	-	-
Accounts payable	605,273	-	-
Accounts payable-related parties	40,443	-	-
Other payables	1,763,203	-	-
Other payables-related parties	158,377	-	-
Long-term borrowings (including current portion)	210,537	346,880	806,250
Bonds payable	303	-	-

December 31, 2017	Less than 1 year	Between 1 and 3 years	Over 3 years
Short-term borrowings	$ 840,589	$ -	$ -
Notes payable	1,746	-	-
Accounts payable	1,432,940	-	-
Accounts payable-related parties	146,180	-	-
Other payables	418,288	-	-
Other payables-related parties	64,326	-	-
Long-term borrowings (including current portion)	227,524	465,902	892,130
Bonds payable	18,483	-	-

June 30, 2017	Less than 1 year	Between 1 and 3 years	Over 3 years
Short-term borrowings	$ 737,326	$ -	$ -
Accounts payable	849,825	-	-
Accounts payable-related parties	154,939	-	-
Other payables	301,544	-	-
Other payables-related parties	16,582	-	-
Long-term borrowings (including current portion)	147,619	488,322	1,298,520
Bonds payable	707,000	-	-

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group’s investment in listed stocks and open-end fund is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group’s investment in listed stocks of private placement is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group’s investment in equity investment without active market is included in Level 3.

B. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

June 30, 2018	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Non-current financial assets measured at fair value through other comprehensive income				
Equity securities	$ 10,130	$ -	$ 418,577	$ 428,707

December 31, 2017	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Financial assets at fair value through profit or loss - current				
Embedded derivatives	$ -	$ -	$ 5	$ 5
Available-for-sale financial assets				
Equity securities	9,910	-	524,653	534,563
	$ 9,910	$ -	$ 524,658	$ 534,568

June 30, 2017	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Available-for-sale financial assets				
Equity securities	$ 18,340	$ -	$ 504,255	$ 522,595
Liabilities				
Recurring fair value measurements				
Financial liabilities at fair value through profit or loss - current				
Embedded derivatives	$ -	$ -	$ -	$ -

D. The methods and assumptions the Group used to measure fair value are as follows:

(a) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares and emerging shares
Market quoted price	Closing price

(b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.

The fair value of financial instruments measured by using valuation techniques method can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.

(c) For highly complex financial instruments, the fair value is measured by using self-developed valuation model based on the valuation method and technique widely used within the same industry. The valuation model is normally applied to derivative financial instruments, debt instruments with embedded derivatives or securitised instruments. Certain inputs used in the valuation model are not observable at market, and the Group must make reasonable estimates based on its assumptions. The effect of unobservable inputs to the valuation of financial instruments is provided in Notes 12(3) I and J.

(d) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

E. For the six months ended June 30, 2018 and 2017, there was no transfer between Level 1 and Level 2.

F. The following chart is the movement of Level 3 for the six months ended June 30, 2018 and 2017:

	Equity securities	
	2018	2017
At January 1	$ 524,653	$ 428,388
Gains and losses recognised in other comprehensive income	(107,349)	63,068
Acquired during the period	-	15,271
Effects of foreign exchange	1,273	(2,472)
At June 30	$ 418,577	$ 504,255

	Embedded derivatives	
	2018	2017
At January 1	$ 5	($ 2,870)
Gains and losses recognised in profit or loss (Note)	(5)	2,870
At June 30	$ -	$ -

Note: Shown as other gains and losses.

G. For the six months ended June 30, 2018 and 2017, there was no transfer into or out from Level 3.

H. Treasury department segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at 2018	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to value
Non-derivative equity					
Unlisted shares	$ 418,577	Market comparable companies	Price to book ratio multiple	2.04~3.45 (2.51)	The higher the multiple, the higher the fair value
			Enterprise value to operating income ratio multiple	26.82~33.05 (32.34)	The higher the multiple, the higher the fair value
			Discount for lack of marketability	25% (25%)	The higher the discount for lack of marketability, the lower the fair value

	Fair value at 2017	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to value
Non-derivative equity					
Unlisted shares	$ 524,653	Market comparable companies	Price to book ratio multiple	1.96~3.7 (1.96)	The higher the multiple, the higher the fair value
			Enterprise value to operating income ratio multiple	16.23~37.75 (37.75)	The higher the multiple, the higher the fair value
			Discount for lack of marketability	25% (25%)	The higher the discount for lack of marketability, the lower the fair value
			Capital value to operating income ratio multiple	1.75 (1.75)	The higher the multiple, the higher the fair value
Embedded derivatives instruments					
Redemption and put options of convertible bonds	5	The Binomial-Tree approach to convertible bonds	Volatility	51.22% (51.22%)	The higher the volatility, the higher the fair value

	Fair value at 2017	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to value
Non-derivative equity					
Unlisted shares	$ 504,255	Market comparable companies	Price to book ratio multiple	1.87~3.11 (2.89)	The higher the multiple, the higher the fair value
			Enterprise value to operating income ratio multiple	30.64.32.66 (32.66)	The higher the multiple, the higher the fair value
			Discount for lack of marketability	22%~25% (24.71%)	The higher the discount for lack of marketability, the lower the fair value
Embedded derivatives instruments					
Redemption and put options of convertible bonds	-	The Binomial-Tree approach to convertible bonds	Volatility	28.00% (28.00%)	The higher the multiple, the higher the fair value

J. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets categorised within Level 3 if the inputs used to valuation models have changed:

	Input	Change	June 30, 2018			
			Recognised in profit or loss		Recognised in other comprehensive income	
			Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets						
Equity instrument	Price to book ratio multiple	±1%	$ -	$ -	$ 377	($ 377)
	Enterprise value to operating income ratio multiple	±1%	-	-	2,913	(2,913)
	Discount for lack of marketability	±1%	-	-	3,559	(3,559)

	Input	Change	December 31, 2017			
			Recognised in profit or loss		Recognised in other comprehensive income	
			Favourable change	Unfavourable change	Favourable change	Unfavourable change

(4) Effects on initial application of IFRS 9 and information on application of IAS 39 in 2017

A. Summary of significant accounting policies adopted in 2017 and the second quarter of 2017:

(a) Financial assets at fair value through profit or loss

i. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition. Financial assets are classified in this category of held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorised as financial assets held for trading unless they are designated as hedges.

ii. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.

iii. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognised in profit or loss.

(b) Available-for-sale financial assets

i. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.

ii. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using trade date accounting.

iii. Available-for-sale financial assets are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income.

(c) Receivables

Accounts receivable are receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. They are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(d) Impairment of financial assets

i. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

ii. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:

   (i) Significant financial difficulty of the issuer or debtor;

   (ii) A breach of contract, such as a default or delinquency in interest or principal payments;

   (iii) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;

   (iv) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;

   (v) The disappearance of an active market for that financial asset because of financial difficulties;

(vi) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;

(vii) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;

(viii) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

iii. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:

(i) Financial assets at amortised cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(ii) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

B. The reconciliations of carrying amount of financial assets transfered from December 31, 2017, IAS 39, to January 1, 2018, IFRS 9, were as follows:

Under IAS 39, because the equity instruments, which were classified as available-for-sale financial assets, amounting to $534,563, were not held for the purpose of trading, they were reclassified as "financial assets at fair value through profit or loss, and accordingly, the Group increased retained earnings and decreased other equity interest in the amounts of $365,436 and $365,436 on initial application of IFRS 9, respectively.

C. The significant accounts as of December 31, 2017, June 30, 2017 and in the second quarter of 2017, are as follows:

(a) Available-for-sale financial assets

Items	December 31, 2017	June 30, 2017
Non-current items:		
Listed stocks	$ 368,320	$ 368,320
Unlisted shares	260,711	270,709
	629,031	639,029
Valuation adjustment	270,968	241,829
Accumulated impairment	(365,436)	(358,263)
	$ 534,563	$ 522,595

i. The Group recognised $22,917 and $68,345 in other comprehensive income for fair value change and reclassified ($225) and $16,791 from equity to profit or loss for the three months ended June 30, 2017, and six months ended June 30, 2017, respectively.

ii. The trading process of private common shares of XPEC Entertainment Inc. held by the Company were changed by Taipei Exchange and were suspended and ceased being traded in the Taiwan Stock Exchange on October 19, 2017, which caused the fair value of investment in XPEC Entertainment Inc. to fall below its investment cost. Accordingly, the Company recognised impairment loss in the amount of $16,379 for the fourth quarter of 2017.

iii. The Group has no available-for-sale financial assets pledged to others as of December 31, 2017 and June 30, 2017.

(b) Current financial liabilities at fair value through profit or loss

Items	December 31, 2017	June 30, 2017
Embedded derivative instruments		
(Put and call options of convertible bonds)	$ -	$ 2,590
Valuation adjustment to financial liabilities	-	(2,590)
	$ -	$ -

The Group recognised net profit amounting to $1,890 and $2,870 on financial assets at fair value through profit or loss for the three months ended June 30, 2017, and six months ended June 30, 2017, respectively.

D. Credit risk information as of December 31, 2017, June 30, 2017 and the second quarter of 2017 are as follows:

(a) Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on accounting and administrator segment ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored. Credit risk mainly arose from cash and cash equivalent and receivables generated from operating activity. Only banks and financial institutions with optimal credit ratings are accepted.

(b) As of December 31, 2017 and for the second quarter of 2017, no credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.

(c) For accounts receivable (including related parties) that are neither past due nor impaired, the Group has screened out credit quality of tradable counterparties, thus, counterparties are all with credit ranking above certain level and the Group expects the credit risk is remote. The balance is as follows:

	December 31, 2017	June 30, 2017
Not past due	$ 2,077,761	$ 946,911

(d) The ageing analysis of accounts receivable that were past due but not impaired is as follows:

	December 31, 2017	June 30, 2017
Up to 30 days	$ 48,155	$ 54,042
31 to 60 days	23,045	9,452
61 to 90 days	6,908	3,700
91 to 180 days	8,515	21,802
Over 180 days	192,811	139,854
	$ 279,434	$ 228,850

The above ageing analysis was based on past due date.

(e) Movement analysis of financial assets that were impaired is as follows:

i. As of December 31, 2017 and June 30, 2017, the Group’s accounts receivable and overdue receivables that were impaired amounted to $99,830 and $102,539, respectively.

ii. Movements in the provision for impairment of accounts receivable are as follows:

	2017		
	Individual provision	Group provision	Total
At January 1	$ 102,539	$ 106,018	$ 208,557
Gain from reversal of doubtful debts	-	(76)	(76)
Effect of exchange rate changes	-	(379)	(379)
At June 30	$ 102,539	$ 105,563	$ 208,102

(5) Effects of initial application of IFRS 15 and information on application of IAS 11 and IAS 18 in 2017

A. The significant accounting policies applied on revenue recognition for the second quarter of 2017 are set out below.

(a) Sales of goods

i. The Group operates on-line games and sells prepaid cards for on-line games and the related products. Revenue is measured at the fair value of the consideration received or receivable taking into account of business tax, returns and sale discounts for the sale of goods to external customers in the ordinary course of the Group’s activities. Revenue arising from the sales of goods is recognised when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied. Revenue from software and other merchandise is recognised when they are delivered.

ii. The Group is engaged in the sale of on-line game stored-value cards and providing on-line game services. When the consumers purchase the online game credits, and use the credits to exchange for service for playing the on-line games and receiving virtual items then the consumed credits are deducted from the players’ accounts. The Group defers and recognises the collections of payments for game card purchases or value-added by players as “advance receipts within current liabilities, and amortises those amounts as revenue over the period of the services or the estimated useful period of the virtual items, when they are actually used in the purchase of services or virtual items for online games.

(b) Sales of services

The commissions received from the sale of on-line game stored-value cards on behalf of others were recognised as service revenue in the service period based on a certain percentage of sales as agreed by both parties.

B. The revenue recognised by using above accounting policies for the second quarter of 2017 are as follows:

	Three months ended June 30, 2017	Six months ended June 30, 2017
Revenue from game/sales revenue	$ 1,649,172	$ 3,804,121
Service revenue	36,354	61,814
Other operating revenue	28,268	65,281
	$ 1,713,794	$ 3,931,216

C. The effects and description of current balance sheets and comprehensive income statements if the Group continues adopting above accounting policies are as follows:

		June 30, 2018		
Balance sheet items	Remark	Balance by using IFRS 15	Balance by using previous accounting policies	Effects from changes in accounting policy
Accounts receivable, net	(2)	$ 1,048,490	$ 1,519,095	($ 470,605)
Accounts receivable due from related parties, net	(2)	7,035	28,673	(21,638)
Other receivables	(2)	509,164	38,560	470,604
Other receivables due from related parties	(2)	39,217	17,578	21,639
Contract liabilities-current	(1)	(634,469)	-	(634,469)
Accounts payable	(2)	(605,273)	(1,186,084)	580,811
Accounts payable to related parties	(2)	(40,443)	(40,611)	168
Other payables	(2)	(1,763,203)	(936,771)	(826,432)
Other payables-related parties	(2)	(158,377)	(36,637)	(121,740)
Other current liabilities	(1) (2)	(271,472)	(1,273,134)	1,001,662

		Six months ended June 30, 2018		
Statement of comprehensive income	Remark	Balance by using IFRS 15	Balance by using previous accounting policies	Effects from changes in accounting policy
Operating revenue	(2)	$ 8,361,250	$ 9,809,795	($ 1,448,545)
Operating costs	(2)	(5,854,563)	(7,303,108)	1,448,545

Explanation:

(a) In the previous reporting date, the Group recognises revenue over the period of the service or the estimated delivery period of the virtual items when the virtual currency is used for the purchases of service or virtual items, respectively. Under IFRS 15, unamortised deferred revenue is recognised as contract liability.

(b) Under IFRS 15, a company is identified as a principal or an agent based on the commitment of specific product or service. The Group does not control the game service provided by third party when the game card is sold, and the game card is an intermedium for players to purchase online game service to be provided by the third party. After the adoption of IFRS 15, the Group recognises revenue at net amount based on the price received less the amount paid to the third party, and relatively adjusted the classification of assets and liabilities. Further, the Group reclassified value-added proceeds and commission expenses from accounts receivable and accounts payable to other receivables and other payables.

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

A. Loans to others: None.

B. Provision of endorsements and guarantees to others: Please refer to table 1.

C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 2.

D. Acquisition or sale of the same security with the accumulated cost exceeding $300 million or 20% of the Company’s paid-in capital: None.

E. Acquisition of real estate reaching $300 million or 20% of paid-in capital or more: None.

F. Disposal of real estate reaching $300 million or 20% of paid-in capital or more: None.

G. Purchases or sales of goods from or to related parties reaching $100 million or 20% of paid-in capital or more: None.

H. Receivables from related parties reaching $100 million or 20% of paid-in capital or more: Please refer to table 3.

I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Note 6(2).

J. Significant inter-company transactions during the reporting periods: Please refer to table 4.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 5.

(3) Information on investments in Mainland China

A. Basic information: Please refer to table 6.

B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: None.

14. OPERATING SEGMENT INFORMATION

(1) General information

Management has determined the operating segments based on the reports reviewed by the chief operating decision-maker which are used to make strategic decisions.

(2) Assessment of segment information

The chief operating decision-maker assesses the performance of the operating segments based on net income or net loss of the reporting period.

(3) Information on segment profit (loss), assets and liabilities

The segment information on reportable segments provided to the chief operating decision-maker for the six months ended June 30, 2018 and 2017 is as follows:

Six months ended June 30, 2018

	Gamania Digital Entertainment Co., Ltd.	Gash Point Co., Ltd. and Gash Point (Hong Kong)	Others	Total	
Revenue from external customers	$ 7,293,331	$ 229,701	$ 838,218	$ 8,361,250	
Inter-segment revenue	93,853	269,461	18,593	381,907	(Note 1)
Segment operating profit (loss)	1,217,711	46,294	(146,630)	1,117,375	
Segment profit (loss), net of tax	930,030	36,565	(84,905)	881,690	
Segment profit (loss) includes:					
Depreciation and amortisation	(97,651)	(3,828)	(14,042)	(115,521)	
Income tax benefit (expense)	(235,920)	(12,514)	(10,127)	(258,561)	
Investment income (loss) accounted for using the equity method	(85,800)	579	48,730	(36,491)	(Note 2)

Six months ended June 30, 2017

	Gamania Digital Entertainment Co., Ltd.	Gash Point Co., Ltd. and Gash Point (Hong Kong)	Others	Total	
Revenue from external customers	$ 832,132	$ 2,505,403	$ 593,681	$ 3,931,216	
Inter-segment revenue	27,572	923,868	20,708	972,148	(Note 1)
Segment operating profit	(1,238)	19,030	(119,042)	(101,250)	
Segment profit (loss), net of tax	80,075	28,514	(63,593)	44,996	
Segment profit (loss) includes:					
Depreciation and amortisation	(77,237)	(5,872)	(39,942)	(123,051)	
Income tax benefit (expense)	(2,526)	(7,852)	(2,879)	(13,257)	
Investment income (loss) accounted for using the equity method	(82,052)	1,424	64,984	(15,644)	(Note 2)

Note 1: The transaction had been eliminated in the consolidated financial statements.

Note 2: The inter-segment investment income or loss had been eliminated.

(4) Reconciliation information of segment profit (loss)

The segment reports provided to the chief operating decision-maker are measured in a manner consistent with that used for the statement of comprehensive income. There is no difference between the presentation of segment report and income statement and accordingly, no reconciliation is required to be disclosed.

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:
(1) Parent company is ‘0’.
(2) The subsidiaries are numbered in order starting from ‘1’.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories:
(1) Parent company to subsidiary.
(2) Subsidiary to parent company.
(3) Subsidiary to subsidiary.

Note 3:Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4:There is no similar transaction to compare with. It will follow the agreed price and transaction terms.

Note 5:The disclosure standard reaches above $10,000 for the transaction amount.
